

EMPLOYERS

ARE YOU STILL IN THE DARK ABOUT
OUR RECRUITMENT AND TRAINING
SERVICES FOR YOUR YOUNG STAFF?

Did you know

College Futures Training has assisted over 2,500 companies, large and small, to benefit from subsidised training for young people working towards an Apprenticeship.

Did you know

That The College, in consultation with employers, can manage all aspects of the training programme including selection, recruitment, induction, and regular planning, assessments and reviews. That means - no paperwork for the employer!

We'll train your Apprentices to your companies' requirements whilst they work towards a nationally recognised qualification including Key Skills and Technical Certificates.

Call College Futures Training 01202 465533 or The College helpline 01202 205205 to find out how you can reap these benefits. Ask for information on Apprenticeships.

Gerry Bishop - Training Manager, Flight Refuelling

"I'm pleased with the quality of service that the College provides. They're very flexible in tailoring the course to meet the company's needs and particularly those of the first year trainees. We look to a long term relationship with the College, the in-house support is very good and they help us with the selection and recruitment process right through from training to employment."
