

Access to College Buildings

The tables give you detailed information about access and facilities in College buildings. Accessible toilets are suitable for people using a wheelchair. Car Parking means that you can have a dedicated parking bay close by but you will need to apply at Reception (Lansdowne or North Road) first.

NB: From February 2007, an alert pager system (an alternative to fire alarms) will be operating in all College buildings, across all sites. This system is of particular use to people with a hearing difficulty.
