Bournemouth & Poole College CGI Graduate Expo 2018

The CGI EXPO is a celebration of our students' achievements, showcasing their work in the field of Computer Generated Imagery, covering modelling, animation and architectural visualisation. Students from all years will be presenting their work, with final years hoping to enter either a one-year placement or a full-time post in the CGI industry.

This is an excellent opportunity for those looking to recruit in the field of Computer Generated Imagery; those who wish to make connections for their own schools and colleges; and those who are interested in further study. There will be plenty of opportunity to chat or interview students - or just browse.

We welcome you to join us to watch these talented students' animated shorts, and visualisations, and help celebrate their achievements.
