

Does The College monitor its learners?

Yes, very carefully. At The College we have strict rules and codes of conduct. We expect learners to be dedicated and to work hard and have a mutually respectful approach to their tutors and fellow students. Good manners are highly valued. As with everything in life, the more you invest the greater the final reward. Students are encouraged to form a bond with their personal tutor, who is responsible for monitoring their progress, attendance and for dealing with any issues, worries or concerns.
