Studying with Us

We're dedicated to preparing you for a career

Whatever your musical interests, we're here to help

Our courses are directed towards employment in performance, broadcast media, recording, lecturing, acoustic engineering and live sound. However, you could also progress to study at university or a specialist music conservatoire.

We offer music courses from Level 1 through to Level 4 (Degree level). Whichever course you choose, you will be part of an exciting, stimulating and creative musical environment.

As well as learning academic and business skills, all our courses have a practical element in live sound and either performance or recording, to equip you for jobs in the industry.
