The New Learning Resource Centres

Information at your fingertips

Created with our students and their learning needs in mind.

Our newly redesigned and refurbished Learning Resource Centres (LRC) at both our North Road and Lansdowne sites have been created with our students and their learning needs in mind. As well as easy access to online and print resources, we've created different learning zones to suit individual study or project work in groups.

The IT suite, project rooms and pods are kitted out with the latest IT equipment and presentation technology. We've even set up integrated re-charge points for recharging mobile devices.

Our Lansdowne LRC is situated in a stunning listed building. The design takes into account the original features of the space while still offering all the modern technologies our students need.
