

Accommodation

A home away from home

The College offers accommodation to students through homestay accommodation

Homestay accommodation

Ideal for college students who are new to the UK

We highly recommend Homestay accommodation for students who are new to the UK or who will be studying away from their family home. It involves living with a local family and includes breakfast and dinner Monday to Friday and three meals at the weekend.

Our Homestay hosts can provide a very pleasant and safe environment for students and if English is not your first language they can help you to practice and improve your language skills. Hosts are asked to integrate students into their family life so you can have a home away from home during your time at The College.
