Teacher Training

Looking to progress your teaching career?

We will help you expand the knowledge, skills, and qualities you need to become a fully-qualified teacher

Are you interested in becoming a teacher? Perhaps you're already teaching and are keen to gain a qualification? Or are you an LSA/TA wanting to progress your career?

We train teachers from across the Lifelong Learning sector through a range of courses designed for teachers, trainers and lecturers working in education with learners aged 14+. At The College you will benefit from flexible study options and gain professional qualifications, some of which are validated by the University of Wolverhampton.

What will I study?

Topics covered will include:

- Planning courses and lessons
- Classroom organisation
- Assessment for learning
- Behaviour management
- Developing resources
- Theories of learning
- Supporting students
- ...and much more.

The emphasis of our Teacher Training courses is on helping you to relate what you learn to your own experience and setting, while supporting your professional development. You will work with a diverse group of learners who come from a wide range of backgrounds and experiences.
