George, Electrical Installation Apprentice

George, age 19, Electrical Installation Apprenticeship

"I won APSE Mechanical and Electrical Apprentice of the Year!"

I wanted to become an electrician after studying a construction based course at school. I knew I didn't want to stay on to do [A Levels](#) so thought I'd explore [Apprenticeships](#) instead. It would mean I would be able to get a qualification and work at the same time.

I applied for roles with a few different companies and also undertook some work trials too. However, I chose [Bournemouth Borough Council](#) because I had completed work experience with them while I was still at school - I was familiar with how things worked and liked the organisation.

I am amazed at how much I have achieved in my Apprenticeship. When I first started I didn't know anything and was nervous that I wouldn't be able to learn everything I would need to know. Now my confidence has really grown and I feel able to undertake a wide range of tasks with little direction. When I am unsure, I know that there is always someone available to ask for advice.

My thoughts on...

- ▶ [On-the-job experience](#)
 - ▶ [Highlights of the Apprenticeship](#)
