Recruitment Solutions

Our service to business

We work closely with you to help understand your Apprenticeship and training requirements.

We have a team of specialists who are able to offer potential employers an Apprenticeship recruitment service - completely free of charge.

What BPC offers businesses

We advertise your work experience and employment opportunities, to our students.

All applications and CVs are screened to ensure that only the candidates that meet your requirements are presented for short listing. Candidates invited to interview are prepared and committed to the jobs they are applying for - and all of this is delivered at no cost to you, saving both time and money.

How we can work with you

We understand how costly recruitment can be and how important it is for employers to invest in the future of their businesses.

The fact that we are able to offer to help businesses find the right staff is the reason why so many employers keep returning to us. Our service will:

- define the skills your business needs
- find, screen and assess potential recruits
- offer on-going support once they start work
