Degree Apprenticeships

The best of both worlds

Achieve a Degree with an Apprenticeship!

A degree apprenticeship is an alternative route to achieving a university degree qualification while gaining valuable work experience and without being in full-time education. They give employees the opportunity to upskill in their chosen field, or retrain in a new career. Combining a Full-Time job with study, they can be completed by anyone who is aged 18 or over, depending on their previous qualifications and experience.

We offer Degree Level Apprenticeships ranging from Higher National Certificates and Diplomas through to Foundation Degrees and full Bachelor's Degrees, all validated by our partners, including Bournemouth University.
