Your first step towards a career in CGI

It's a really exciting time to be part of the Animation industry in the UK

We offer two courses in CGI – FdSc 3D Computer Generated Imagery & BSc (Hons) 3D Computer Generated Imagery (Top up)

Check out our talented students work form this year's final show

Check out our year 3 BSc Hons student final work

Over the years, we've been involved in a number of projects such as modelling National Trust monument Corfe Castle, archaeological re-constructions, walkthroughs for architects and estate management.

See our Foundation Degree course

See our BA (Hons) Top-up course

We've been training Animation and CGI students for over a decade and have helped place them into over 100 different companies where they have assisted in creating some really exciting projects. Former students work with The Mill, Moving Picture Company, Framestore, Codemasters, Lionhead Studios, Visual House and Emperor Vision. They have worked on movies like Tale of Desperaux and Harry Potter, adverts for Comfort, Lynx and Audi and also games including 50 Cent, Need for Speed and DJ Hero.
