

## The Course

### In brief...

Apprenticeships are a popular choice for people looking for on-the-job training and the opportunity to gain recognised experience whilst earning a wage. Your training will take place at College in conjunction with your employer and they will be heavily involved in your progress and development.

A Infrastructure Technician Apprenticeship will give you valuable experience within the IT industry. Whether it is working as a Help Desk Technician, First or Second Line Support, IT Infrastructure Technician, Network Support, this apprenticeship will pair you with one of the many highly successful local businesses specialising in IT hardware/software use and support.

You will come to college one day a week where you will explore and research the latest developments in IT software and hardware, working processes and practices. The remainder of the week you will be working alongside the experts in the industry as part of the workforce of one of the locally based business.

### Who is it for?

You will need to show a strong commitment to pursuing a career within the IT Infrastructure/Support industry and keen interest in developing your IT Skills and knowledge. Ideally will have completed a relevant Level 3 qualification.

### What the Course Leads to

#### What courses can I do after this?

On successful completion of this Apprenticeship you could work in any business within their IT support department or within one of the many businesses that offer IT and Network services an support, or possibly continue your studies into Higher Education.

### What do I need to apply

#### To do this course you should have...
