

UHWS - Unvented Hot Water Assessment only - initial

Inspiring Lives, Discovering Futures

The Course

In brief...

This assessment has been designed for people looking to renew or update BPEC certificate or for those currently working within the mechanical services and plumbing industry who wish to achieve BPEC accreditation.

What the Course Leads to

What courses can I do after this?

On successful completion of this course you can progress onto Water Regulations or Energy Efficiency.

What do I need to apply

To do this course you should have...

No formal entry requirements but you should be competent in hot & cold water system installations.

Competency to enter this course will be considered based on you either having completed a relevant NVQ qualification such as plumbing, heating & ventilation or gas, or having been working in the industry for approximately two years in these areas with relevant technical certificates.

If you are concerned that you do not fit this criteria please contact us to discuss your circumstances and consider the Initial training and assessment course.
