Online and On Campus

Online and On Campus - it's the best of both worlds

We appreciate that the pace of everyday life is getting faster, which is why we've looked for new ways of teaching - ways that make it easier to study alongside work and life commitments.

mindful education

Bournemouth & Poole College have worked in partnership with [Mindful Education](#) to create a suite of blended learning courses that provide flexible study options, combining online learning with face-to-face lessons in the classroom.

Our range of professional courses offers the best of both worlds, requiring less time in college than traditional classroom-only courses, and allowing learners to choose how, when and where they want to study.

The benefits

- ▶ [Online](#)
 - ▶ [On Campus](#)
-
-

"Blended was perfect for me because I'm a mum and I have to work so it was perfect for me to only come to college for classes once a week and to study online when I have the time."

Online and On Campus AAT Student

Our courses

- ▶ [Accountancy - AAT Level 2 Foundation Certificate in Accounting \(Online and On Campus\)](#)
 - ▶ [Accountancy - AAT Level 3 Advanced Diploma in Accounting \(Online and On Campus\)](#)
 - ▶ [CMI Level 5 Apprenticeship Operations/Department Manager](#)
-
-

Note regarding Coronavirus (COVID-19): Due to the nature of our Online and On Campus courses, with key concepts being taught online through high-quality video lectures, students are able to continue their studies seamlessly during any college closure. 'On Campus' lessons are replaced by remote 'virtual classroom' sessions led by college tutors. This flexible approach can be easily adapted to suit government guidance and college policies.
