## Construction & Built Environment

### Brief Summary

The Construction and built environment sector provides functional, cost-effective, sustainable buildings and infrastructure for the future.

We work in conjunction with professional bodies and leading employers to develop our courses and ensure you gain all the skills you need for a job in the industry.

#### Courses in this subject area

- [HNC Construction Management](#)
- [HNC Quantity Surveying](#)

#### Careers

You will become part of a vital profession that changes the built world around us. In this sector you will be responding to what people want and need from structures.

Depending on the route you take, you might be designing our built environment, you might be creating and managing the systems we need to make buildings habitable, or perhaps you will be responsible for ensuring that it all fits together and suits the local community.

#### Facilities

Construction is based at our North Road site in Poole. You'll have access to fantastic facilities and expert tutors to help progress your career. We also have online study options.

#### Got a question?

We are on hand to answer any queries you have, so don't hesitate to contact us.
