## COVID-19 update for Degree Level

Dear student,

The College is currently open and face-to-face teaching is taking place and this is the plan for September 2020

We wanted to update you regarding your courses and teaching for September 2020. All enrolments will now take place online and you will be contacted with further information over the summer.

We are currently developing a new interactive learning model with our academic teams, which we anticipate will provide every student with a combination of face-to-face teaching in smaller group classes with some virtual teaching sessions, to provide the best student experience whilst complying with government requirements regarding social distancing.

Lecturers and Programme Leaders are working hard to determine how each of your courses is delivered to ensure the best possible experience whilst keeping you and our staff safe.

Individual 1-1 tutorials and meetings will be held on-line for your convenience but you will still be interacting with other students to discuss, debate, research and create throughout your course. This blended approach to learning will allow you to engage with your studies at times that suit you and in ways which suit your learning style. This will enhance your understanding in scheduled lectures and workshops and enable you to gain more from your course.

We will be updating information as the situation changes but if you would like any more information about your chosen course, please do not hesitate to contact us.

The HE Team
