Update: Reopening the College

As of the 15th June 2020, Bournemouth & Poole College will be partially reopening its sites for a limited number of students. Every care has been taken by the College to plan for the safest and most effective return for students and staff.

This webpage will provide further information about the reopening and the guidelines the College have in place to ensure the safety of everyone on site.

Please note that plans are subject to the final decision of the Government, in regard to the reopening of schools and colleges.

We understand that this is an uncertain time for many people and we want to reassure you that the College is here to support you, both academically and personally. As such, we recognise that not all students may wish to return to our sites at the moment and that some might not be able to, in order to protect themselves or vulnerable family/household members.

Please be assured that attendance onsite will not be mandatory and students will not be penalised if they are not able to attend classes on site. Remote teaching will continue until the end of term and the College is here to support all students, both on and off campus.
