### **Important Update: returning for the summer term**

As the Government begins to implement its COVID-19 roadmap, we all have a part to play and our individual actions continue to be extremely important in preventing the spread of COVID-19.

When you return to College for the summer term, it is important that you continue to take your COVID-19 home tests. Please ensure that they are completed the day before you are due to return, log your result on the NHS and College websites. More information can be found at [thecollege.co.uk/testing](https://thecollege.co.uk/testing)

### **Conduct**

We are reminding our students and staff that it is important that everyone continues to follow the Government's guidelines to ensure the College and wider community are safe for everyone. This includes maintaining social distancing and wearing face coverings.

### **COVID-19 Testing at the College**

In order to ensure the College remain a safe environment for everyone, we ask that all students and staff continue to take part in our COVID-19 testing.

Please visit our dedicated COVID-19 testing page for more information about how testing will work at the College:  
[thecollege.co.uk/testing](https://thecollege.co.uk/testing)
