

The Course

In brief...

The Level 3 Automotive course is a 1 year full time course.

The course is dedicated to giving the learner the ability to carry out maintenance and repair on the main Vehicle components and systems.

This course is designed to enable the student to be able to diagnose and rectify faults and have a good understanding of the vehicle systems and how they work.

Your learning will be assessed through a combination of:

- Workshop based tasks and questioning from your assessor
- Written assessments
- Online testing
- Recording your work weekly using an E-portfolio to show your progress.

Who is it for?

Those who have successfully completed a Level 2 Automotive Diploma (Maintenance & Repair).

What the Course Leads to

What courses can I do after this?

This course will get your ready to apply and progress on to the Level 3 Apprenticeship standard

What jobs can I get?

This course will get your ready to apply to work in an Automotive garage in a variety of roles including **Light Vehicle Service Technician** or a **Light Vehicle Diagnostic Technician** <http://wow.autocity.camart.co.uk/world-of-work>

What do I need to apply
