

The Course

In brief...

This course is ideal for anyone with an interest in manufacturing engineering as it will lead to a work-related qualification that reflects the knowledge, skills and understanding required in the sector.

The aims of this qualification are to:

- inspire and enthuse learners to consider a career in the engineering sector
- give learners the opportunity to gain a broad knowledge and understanding of, and develop skills in, the engineering sector
- support progression to a more specialised level 3 vocational or academic engineering course or an apprenticeship
- give learners the potential opportunity, in due course, to enter employment within a wide range of job roles.

Who is it for?

Students who are interested in developing a career within the engineering and manufacturing sectors

What the Course Leads to

What courses can I do after this?

Progression at The College onto a Level 3 BTEC Certificate in Engineering or an Apprenticeship.

What jobs can I get?

The qualification will provide you with the theory and practical skills to help you gain employment in the manufacturing and engineering sectors.

What do I need to apply

To do this course you should have...

You will require a minimum of 5 GCSEs including English, Maths and Science at grades 9 - 3 (formally A* to C)

What about work experience?

You will be required to complete a minimum of 30 hours of work experience with a manufacturing/engineering employer during your course.

Course costs

Course Code	Start Date	Costs 16-18	Costs 19-23 (with concessions)	Costs 19+ (no concessions)
TDN2FF002B	05/09/2022	£105.00	£105.00	£1838.00

* Please note fees are subject to change.

Key Information

Duration

1 Year

Attendance

Full-time

Level

Level 2

Qualification Name

Certificate

Awarding Body

EAL

Curriculum Area

Engineering - Engineering and Electronics

Course Content

Course Content

The course covers a number of core & mandatory units:

- Engineering Environmental Awareness
- Fitting and Assembly Techniques
- Manual Turning Techniques
- Manual Welding Techniques
- Engineering Mathematics and Science

The teaching of these units includes practical workshop experience.

You will also study GCSE or Functional Skills English and Maths if you are required to improve your grades.
