Curriculum Area

Construction - Construction Skills

The Level 1 Certificate is made up of a number of different types of units both knowledge and practical. A full qualification requires you to successfully complete and pass all the units.

Knowledge covered:

- Know how to carry out safe working practices
- Knowledge of information and communication with others
- Knowledge of building methods and construction technology
- Know how to prepare background surfaces and plaster materials
- Know how to apply plastering materials to internal backgrounds
- Know how to produce components from moulds

Practical units are:

- Carry out safe working practices
- Information and communication with others
- Building methods and construction technology
- Prepare background surfaces and plaster materials
- Apply plastering materials to internal backgrounds
- Produce components from moulds

Depending on GCSE grades on entry - the study programme will include GCSE or Functional Skills in Maths and English.
