

The Course

In brief...

From Science of Health to Physics in Sports, you will possess an array of practical skills in a diverse pool of topics. By the end of this course, you will be well suited for further study or work. It is delivered by qualified staff who have a wide range of vocational experience.

Who is it for?

This course is for those who are keen to progress to Level 3 if you are thinking of specialising in Forensics or Biomedical Sciences here at the College. Or maybe you have a keen interest in a career in science, this course will provide you with an exceptional foundation.

What the Course Leads to

What courses can I do after this?

On successful completion of the course you can progress onto the Forensic Science or Medical Science - BTEC National Diploma, or other Level 3 courses.

What jobs can I get?

All courses are delivered in outstanding laboratories with modern equipment to train you for further studies where after you can apply for entry-level roles such as:

- Gas/Oil Technician
- Animal Technician
- Food Technician
- Pharmacy retail worker
- Laboratory assistant

Science equips you with lots of employability skills such as teamwork, problem-solving and concise writing which are valuable for jobs in other sectors you may be interested in.

What do I need to apply

To do this course you should have...

You will require a minimum of 4 GCSEs at grades A*-D including English and maths grades 9-3 (formerly A*-D) and science for some programmes. Alternatively successful completion of a relevant Level 1 qualification and have achieved a Level 1 Functional Skill in English and maths.

What about work experience?

You will complete 30 hours of work experience during the course.

This will help you to get an insight into what it is like to work in a science-related setting, and help you decide your future aspirations.
