Important Update: Current COVID-19 Guidance

With government advice surrounding COVID-19 continually changing, we all have a part to play and our individual actions continue to be extremely important in preventing the spread of COVID-19.

This guidance is subject to change without notice, so we encourage all members of The College's community to regularly check the website for updates.

Masks or face-coverings

Masks are no longer recommended. Those that wish to still wear a mask can of course do so.

Testing

It is helpful that you continue to take your COVID-19 home tests. More information on testing can be found at thecollege.co.uk/testing

Hand Sanitiser

Please continue to practice good hygiene. Hand sanitiser will be placed at all entrances and you should use it when you enter a building.

Minimising spread

Please still be cautious when meeting in social spaces. Social distancing is still advised. Please meet in fresh air as much as possible and open windows in enclosed spaces to let fresh air through to minimise spreading of infections.
