

NEBOSH - General Certificate

Inspiring Lives, Discovering Futures

The Course

In brief...

The NEBOSH (National General Certificate in Occupational Safety and Health) is an examined basic qualification for people who are responsible for health and safety at work.

With in-depth focus on the things that matter, the NEBOSH National General Certificate covers:

- How to effectively manage health and safety
- How to identify and control common workplace hazards
- How to measure if you've been successful
- The UK's key legal requirements

Risk assessment is central to the qualification. Through study and workplace application, successful learners will be able to:

- Confidently carry out risk assessments
- Develop and implement a detailed action plan
- Manage and minimise workplace risks
- Support and develop your company's health and safety culture

Course Content

Course Content

Unit NG1: Management of health and safety

Elements

- Why we should manage workplace health and safety
- How health and safety management systems work and what they look like
- Managing risk - understanding people and processes

Unit NG2: Risk assessment

Elements

- Physical and psychological health
- Musculoskeletal health
- Chemical and biological agents
- General workplace issues
- Work equipment
- Fire
- Electricity

Please note that this course requires commitment of your time as extra work outside of the classroom is required.

This modern qualification combines activities, learning and interactive materials to provide you with an interesting and engaging experience. It focuses on key skills that means you can instantly apply the knowledge you gain and add value to your organisation. Assessment is a two-step process.

- A question paper to assess what you *know*, *this will be done at home via the Nebosh website*.
- A practical risk assessment to assess what you can *do*.
