

The Course

In brief...

Around 1.5 million people in the UK have a learning disability. Owing to the fact that they are likely to find it more difficult than others to describe their symptoms, a good knowledge of legislation and the healthcare system, as well as an understanding of signs and symptoms of various conditions, is essential for anyone working with individuals with learning disabilities

### **Who is it for?**

Whether you're interested in learning for work, career progression or self-development, our range of nationally recognised courses provide a flexible blended approach to your learning.

For each qualification the learner receives an learning pack, which contains all the theory and knowledge a learner will need to achieve these Level 2 qualifications. We use an online learning platform known as eAssessor to submit your answers to the course, the course is broken into topics/sections and you submit your studies to your assessor for feedback as you work your way through.
