Things you need to know

Practical information

There's a lot of information you'll undoubtedly want to get your head around.

Where to start

Our website is a great resource where you can find lots of information. You can also contact us to ask any questions or take a look at the following useful links.

The best way to get specific course information - such as timetables and the cost of buying books and materials - is to contact the curriculum area directly (if you call **01202 205205**, we'll put you through to the relevant department).

Fees:

There are no tuition fees to pay if your son or daughter is 16-18 years old and studies a full-time course, or Apprenticeship with us. There are usually no examination fees for students under 19 (or under 20 if progressing to the second year of a course), apart from re-sits.
