

Science

Studying Science will put you in high demand and set you up for life

Science Courses

[Certificate Level 1 - Brickwork Full Time](#)

[City and Guilds Level 3 Diploma in Travel and Tourism](#)

[IMI Level 2 Subsidiary Diploma in Light Automotive \(Maintenance & Repair\)](#)

[NCFE CACHE Level 3 Diploma in Childcare and Education \(Early Years Educator\) \(EYE\)](#)

Are you fascinated by science? Want to conduct your own crime scene investigations? Then our courses are right for you!

Studying science can be a fascinating experience and can lead to an extremely rewarding career. In Bournemouth and Poole there is a predicted 6% growth in science related jobs over the next 5 years.* Our students can progress into fields such as medicine and forensic science, as well as continuing their studies onto Degree Level courses.

With expert teaching staff, state of the art facilities and incredible work experience options, the College is the perfect place to explore your scientific interests.

Our courses will prepare you for these industries by enhancing your knowledge and understanding of Science. You will gain confidence in your abilities through hands-on experiments in the lab, presentations, facilitated discussions, outside speakers and demonstrations.

There is a keen focus on your ability to work independently, as well as developing your teamwork and communication skills.
