Open doors to your future by studying Social Science

Criminology, Psychology and Law have seen a 12-15% growth international in study and career opportunities since 2012. Some areas of Psychology are expecting up to a 53% uplift in career opportunities relevant to other career areas. *

Jump in to this growing sector by studying at The College. With guidance from our expert tutors, you will develop your analytical, research and critical thinking skills.

Our social science qualifications will open doors for you, whether you want to get a job, progress your career or go to University.

The contents of these courses will allow students to explore the vast world of social science, improving their knowledge and understanding of key approaches and theories.

From courses to careers!

Thinking about your career - at The Bournemouth & Poole College we know that getting a good qualification is only part of the story. It's what it leads to that's really important. Our interactive widget below can help you understand some of the careers that our courses lead too, with average salaries, current employment and predicted growth over the next couple of years.
