

**IT'S NO LONGER A PIPE DREAM.**

**CONGRATULATIONS!**

**YOUR JOURNEY TO BECOME A GOOD PLUMBER, BEGINS.**

On your journey, you will learn all aspects of practical hands on plumbing work from working with copper (bending and soldering) to working with Low Carbon Steel pipe and fittings, Compression and Push fit fittings along with the associated waste fittings. You will also learn how to install and test Radiators, Basins, Baths, Hot Water Cylinders, Cold Water Cisterns, Sanitary Ware, Taps as well as all the accompanying maintenance requirement for each of those areas.

More advanced aspects of Plumbing and Heating will also be covered as you progress through your studies and qualifications, where you will be given good opportunity to develop your skills and knowledge further.

**As discussed with you at your interview, here is a reminder of what you will need for your studies with us.**
